Chairman Ketterling stated that this meeting was in reference to Twin Lakes. LaMoure County needs a study on the new depth the lake will be leaving at since an old road that has been farmed over for years has been removed. The road that was removed will lower the elevation height of the lake by approximately 10-12 inches. Mr. Gross made a motion to have the state do a study on new depth of Twin Lakes, seconded by Mr. Frauenberg. Motion carried. Chairman Ketterling asked that Kimberly Robbins draft and send a letter to the state for the study.
