DES/911 Coordinator, Kimberly Robbins, presented to the board on the SIRN update which is moving from VHF radios to 800 megahertz. Several counties in the state have already moved to this but the towers in LaMoure County have not been built by the state so we cannot move to the updated system. LaMoure County is grouped with the surrounding counties of Dickey, Ranson and Sargent for law enforcement. These counties have towers and will transition into the new system this year. LaMoure County may have to budget for a temporary fix until the towers are built by the state. Robbins' also updated the board on a spring outlook and river update. The chances of the James River flooding are low and in the minor flood stages at about 10%.

Comm Wald suggested the idea of looking into Orr Auction for purchasing park equipment.

Comm Weigel did not have an update on the Sheriff's Department market salary as he is still waiting on HR.
